

I am opposed to the FCC proposal to give LPFM stations priority over existing FM translator stations.

I listen to a national station, K-LOVE, on an FM translator in Topeka, KS.

K-LOVE is a great benefit to me and my local community. K-LOVE provides a positive, encourage message that helps me through out the day.

My community will be harmed if K-LOVE is replaced by a LPFM station. Families in my community have been helped, homeless people have been served and people with all kinds of addictions are assisted by listening to K-LOVE. People can call a K-LOVE help line and receive assistance in the struggles they face in their daily lives.

I am personally helped by K-LOVE in the attitude that is presented by K-LOVE.

Please do not allow a LPFM station replace K-LOVE in Topeka, KS.

Thank you.
